

PMP - PACKAGES LABELING

Product

April 2016

The right label for the right package!

Print a label on your product is the end result of your work. It's also your link between the mill floor, the sales and your customers.

With **PMP packages labeling**, you make sure that you feed your inventory management system with the right information

Main features

- Robust
- Define list of products per type of production run
- Easily add new products or new details on labels
- Share information in real-time with everyone and everywhere
- Allow reprinting labels or regrade packages
- Manage special orders
- Can be installed on a new computer in minutes in case of failure
- Make reports

Benefits

- Increase quality information
- Reduce wasted time to walk around for physical inventory

« Your staff will have on hand and in real-time an accurate, complete and accessible packages production information, »
